Dear Roger

Non-network solution for PSCR: Maintaining reliability of supply between Clare South & Townsville South

Wilmar Sugar Pty Ltd (Wilmar) wishes to submit a non-network solution for the Project Specification Consultation Report (PSCR) for maintaining reliability of supply between Clare South & Townsville South for your consideration and analysis.

Wilmar is Australia's largest and most experienced generator of electricity from biomass. We own and operate five power stations (sugar mills) within the region from Proserpine to Townsville South. We have a proven history of providing credible non-network solutions for Powerlink.

For this PSCR we propose the use of [REDACTED] at our power station at [REDACTED] to provide a credible non-network solution.

To facilitate your consideration, I have listed the key parameters of the unit and connection details below in Table 1 and have attached further generator and transformer information in **Appendix A** for your review.

Table 1: Overview of key parameters

Criteria	Description
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]

Wilmar remains very interested in providing a non-network solution and we hope that this information provides sufficient detail to allow commercial discussions to proceed.

I look forward to your response. Please do not hesitate to contact me if you have any questions or queries.

Yours sincerely
