Wambo Wind Farm Connection Project

Powerlink Queensland is proposing to construct a 275kV transmission line to connect the Wambo Wind Farm to the transmission network. The transmission line will be located within the existing 132kV Tarong to Chinchilla transmission line easement for 45km (with a small easement widening of 10m required), then at Ellesmere the line will divert south for 2km to Powerlink's existing Halys Substation.

Powerlink has prepared a **Ministerial Infrastructure Designation Proposal** which provides a comprehensive assessment of the environmental, social, technical and economic aspects of the project, and outlines ways to manage or mitigate potential impacts. This proposal has been submitted as a request for Ministerial Infrastructure Designation (MID) under the *Planning Act 2016*.

The MID Proposal can be viewed at:

- www.powerlink.com.au/projects/wambo-wind-farm-connection-project
- www.statedevelopment.qld.gov.au/mid-consultations

You can make a submission on or before close of business Wednesday 29 March 2023 to the Department of State Development, Infrastructure, Local Government and Planning's Ministerial Infrastructure Designation team:

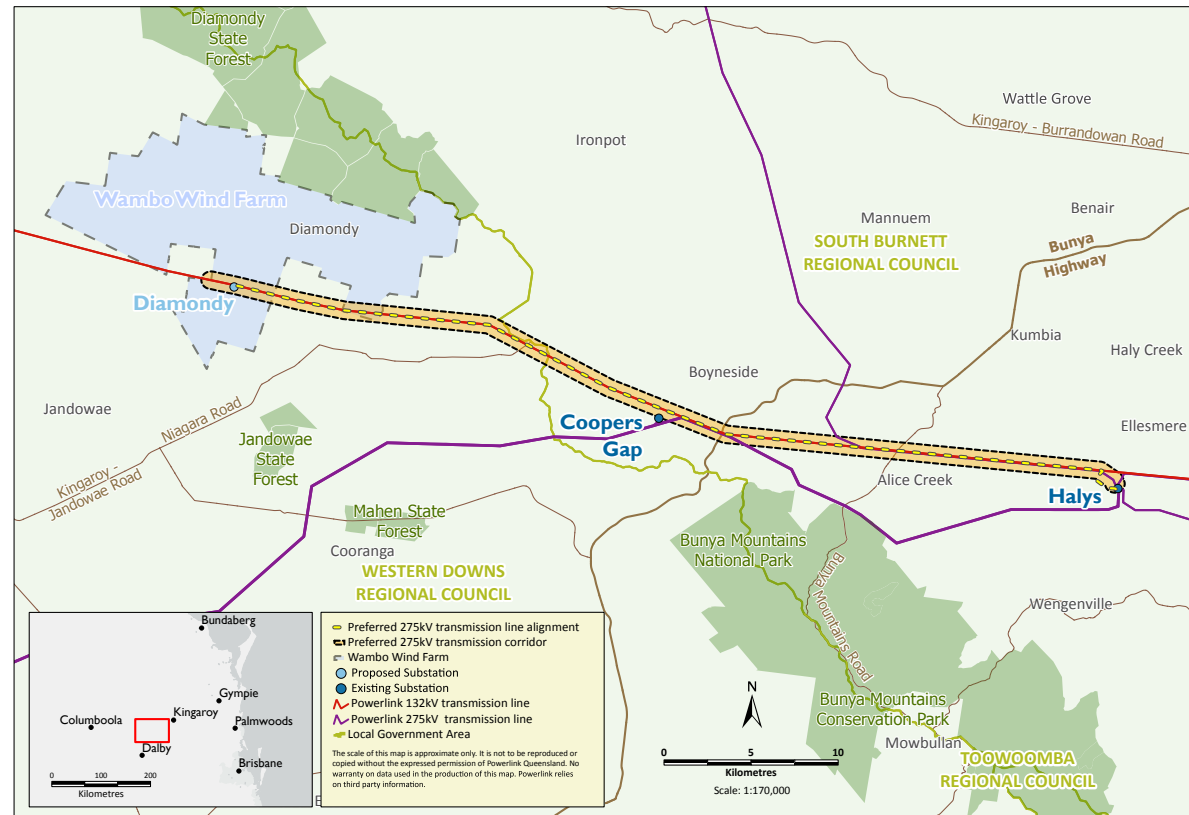

- online - www.statedevelopment.qld.gov.au/mid-consultations
- email - infrastructuredesignation@dSDLGP.qld.gov.au
- post - PO Box 15009, City East, QLD, 4002.

Meet our team

Powerlink will be attending a **Public Information Forum** about the Wambo Wind Farm being hosted by Cubico Sustainable Investments and Stanwell Corporation at the Jandowae Memorial Hall (38 George Street, Jandowae) on Wednesday 8 March 2023, from 5.30pm to 6.30pm.

Our team will also be attending a **local supplier information session** being hosted by Toowoomba and Surat Basin Enterprise at the Windsors Hotel Dalby (32 Patrick Street, Dalby) on Thursday 9 March 2023, from 11am to 2pm. Landholders, the community and other stakeholders are invited to attend these sessions to learn more about the Wambo Wind Farm Project and provide their feedback on Powerlink's MID Proposal.
