# Transmission Linesperson Apprenticeship

If you're not scared of heights and you want to earn while you learn, find out if a Transmission Linesperson Apprenticeship with Powerlink is the next step for you to launch your career to the higher level!

## WHAT DOES A LINESPERSON DO?

Our Lines Team work on overhead transmission lines including the installation, inspection and maintenance of towers, poles, structures, conductors and hardware.

This trade is not to be confused with an electrical apprenticeship. It is focused more on the infrastructure such as transmission towers and conductors (the lines) in between.

## THE APPRENTICESHIP

- Four year apprenticeship
- Complete a nationally recognised qualification *Certificate III ESI Power Systems*
- First aid certificate and Cardiopulmonary resuscitation (CPR) certificate
- Working at heights certificate
- High risk work licences (including elevated work platform, rigging and dogging, and forklift)
- Heavy rigid truck licence

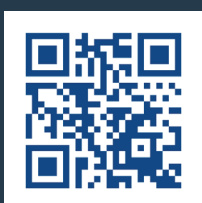

## WHAT POWERLINK PROVIDES YOU

- All college fees are covered by us
- Your own toolkit (worth over \$3000)
- Your uniform and Personal Protective Equipment (PPE)
- Work life balance with nine day fortnight roster
- Attractive salary with yearly increases (you get paid while you learn!)
- Learn from industry leading mentors

## WHAT YOU'LL NEED

- Completed Year 12 (or in the process of doing so) with passes in English and Maths – unless you are a mature aged candidate
- Hold a current Queensland Drivers licence (manual required so must be willing to obtain)
- Have your own means of transportation
- No fear of working at heights
- Look forward to working away in various remote locations
- You enjoy being outdoors
- Willing to live and breathe safety
- Strong work ethic
- Team player
- Good communication skills
