

Schedule 3 - Revised System Strength Unit Prices for Queensland - 2024/25

To apply from 1 July 2024 to 30 June 2025 (inclusive of GST)

System Strength Node	System Strength Unit Price (\$/MVA/year)
Gin Gin	7,318
Greenbank	7,072
Lilyvale	4,906
Ross	3,985
Western Downs	2,045

Notes

- 1 The 2024/25 System Strength Unit Prices were revised on 11 April, 2024 consistent with the Australian Energy Market Commission's Final Determination and Rule released on 14 March, 2024. The Rule allowed Powerlink to update and publish its revised SSUPs before 14 April 2024, to apply from 1 July 2024
- 2 The system strength unit prices shown in this schedule have been determined in accordance with Chapter 6A of the National Electricity Rules and Powerlink's Approved Pricing Methodology.
- 3 This schedule provides the unit price in \$/MVA/year for the calculation of prescribed system strength charges. These charges apply to eligible connecting parties who choose not to remediate their full system strength impact on the network.
- 4 The relevant system strength node, system strength quantity (MVA) and locational factor information required to calculate prescribed system strength charges will be confirmed by Powerlink through the connection enquiry and application to connect processes.
- 5 Prices associated with other prescribed transmission services, such as transmission use of system, and non-prescribed services are not included in this schedule.
- 6 For more information on the system strength charging framework, please see Powerlink's System Strength Charging information sheet.
